American Journal of Physiology:
Endocrinology and Metabolism

No. 1. JULY 1996

INVITED REVIEW

Compartmentalization of protein traffic in insulin-sensitive cells
K. V. Kandror and P. F. Pilch E1

T_3 potentiates the adrenergic stimulation of type II 5′-deiodinase activity in cultured rat brown adipocytes
A. Hernández and M. J. Obregón E15

Galanin gene expression in radiothyroidectomy-induced thyrotroph adenomas
J. F. Hyde, J. P. Moore, Jr., K. W. Drake, and D. G. Morrison E24

Creatine ingestion favorably affects performance and muscle metabolism during maximal exercise in humans
A. Casey, D. Constantin-Teodosiu, S. Howell, E. Hultman, and P. L. Greenhaff E31

Metabolic response of type I and II muscle fibers during repeated bouts of maximal exercise in humans
A. Casey, D. Constantin-Teodosiu, S. Howell, E. Hultman, and P. L. Greenhaff E38

Adipose tissue stearoyl-CoA desaturase mRNA is increased by obesity and decreased by polyunsaturated fatty acids
B. H. Jones, M. A. Maher, W. J. Banz, M. B. Zemel, J. Whelan, P. J. Smith, and N. Moustaïd E44

Reciprocal GLUT-1 and GLUT-4 expression and glucose transport in denervated muscles
A. Handberg, L. A. Megeney, K. J. A. McCullagh, L. Kayser, X.-X. Han, and A. Bonen E50

Kinetic aspects of acetate metabolism in healthy humans using [1-^{13}C]acetate
E. Pouteau, H. Piloquet, P. Maugeais, M. Champ, H. Dumon, P. Nguyen, and M. Krempf E58

Involvement of G proteins in the effect of carbachol and cholecystokinin in rat pancreatic islets
E. J. Verspohl and K. Herrmann E65

Kinetic analysis of receptor-mediated endocytosis of G-CSF derivative, nartograstim, in rat bone marrow cells
T. Kuwabara, S. Kobayashi, and Y. Sugiyama E73

Role for GTP in glucose-induced phospholipase C activation in pancreatic islets
J. Vadakekalam, M. E. Rabaglia, Q.-H. Chen, and S. A. Metz E85

Perfused skeletal muscle contraction and metabolism improved by angiotensin II-mediated vasoconstriction
S. Rattigan, K. A. Dora, A. C. Y. Tong, and M. G. Clark E96

Expression of AT_{1A} and AT_{1B} angiotensin II receptor messenger RNA in forebrain of 2-wk-old rats
O. Jöhren and J. M. Saavedra E104

Role of nitric oxide resistance in erythropoietin-induced hypertension in rats with chronic renal failure
N. D. Vaziri, X. J. Zhou, F. Naqvi, J. Smith, F. Oveisi, Z. Q. Wang, and R. E. Purdy E113

Effects of pulsatile delivery of basal growth hormone on lipolysis in humans
E. Cersosimo, F. Danou, M. Persson, and J. M. Miles E123

Direct effects of catecholamines on hepatic glucose production in conscious dog are due to glycogenolysis
C. A. Chu, D. K. Sindelar, D. W. Neal, and A. D. Cherrington E127

Microdialysis measurements in skin: evidence for significant lactate release in healthy humans
P-A. Jansson, A. L. Krogstad, and P. Lönnroth E138

Role of the lactate transporter (MCT1) in skeletal muscles
K. J. A. McCullagh, R. C. Poole, A. P. Halestrap, M. O'Brien, and A. Bonen E143

Dexamethasone rapidly increases hypothalamic neuropeptide Y secretion in adrenalectomized *ob/ob* mice
H.-L. Chen and D. R. Romsos E151

Response of phospho*enol*pyruvate cycle activity to fasting and to hyperinsulinemia in human subjects
R. R. Wolfe, D. Chinkes, H. Baba, J. Rosenblatt, and X. Zhang E159

Effects of circulating IGF-I on glucose and amino acid kinetics in the ovine fetus
E. A. Liechty, D. W. Boyle, H. Moorehead, W.-H. Lee, R. R. Bowsher, and S. C. Denne E177

Fetal substrate uptake during increased ovine fetal cortisol concentration
J. R. Milley E186

Control of cell proliferation in the rat adrenal gland in vivo by the renin-angiotensin system
P. E. McEwan, G. B. Lindop, and C. J. Kenyon E192

Lack of effect of an acute ileal perfusion of short-chain fatty acids on glucose metabolism in healthy men
C. Alamowitch, J. Boillot, A. Boussairi, A. Ruskone-Fourmestraux, A. Chevalier, S. W. Rizkalla, F. Guyon, F. R. J. Bornet, and G. Slama E199

RAPID COMMUNICATION

Fluid flow stimulates rapid and continuous release of nitric oxide in osteoblasts
D. L. Johnson, T. N. McAllister, and J. A. Frangos E205

No. 2. AUGUST 1996

Appetite regulation by carbohydrate: role of blood glucose and gastrointestinal hormones
J. H. Lavin, G. Wittert, W.-M. Sun, M. Horowitz, J. E. Morley, and N. W. Read E209

Neural and pancreatic influences on net hepatic glucose uptake and glycogen synthesis
M. C. Moore, L. Rossetti, M. J. Pagliassotti, M. Monahan, C. Venable, D. Neal, and A. D. Cherrington E215

Effects of refeeding of undernourished and insulin treatment of diabetic neonatal rats on IGF and IGFBP
L. Goya, F. Rivero, M. A. Martín, R. Arahuetes, E. R. Hernández, and A. M. Pascual-Leone E223

Gastrointestinal tract protein synthesis and mRNA levels for proteolytic systems in adult fasted rats
S. E. Samuels, D. Taillandier, E. Aurousseau, Y. Cherel, Y. Le Maho, M. Arnal, and D. Attaix E232

Dissociation of paraventricular NPY release and plasma corticosterone levels in rats under food deprivation
T. Yoshihara, S. Honma, Y. Katsuno, and K. Honma E239

Evidence for a circadian rhythm of insulin secretion
G. Boden, J. Ruiz, J.-L. Urbain, and X. Chen E246

Regulation of type II adenylyl cyclase mRNA in rabbit skeletal muscle by chronic motor nerve pacing
C. E. Torgan and W. E. Kraus E253

Relationships between sleep quality and glucose regulation in normal humans
A. J. Scheen, M. M. Byrne, L. Plat, R. Leproult, and E. Van Cauter E261

Desensitization of β-adrenergic receptors in adipocytes causes increased insulin sensitivity of glucose transport
A. Green, R. M. Carroll, and S. B. Dobias E271

Increased PTHRP production by a tyrosine kinase oncogene, Tpr-Met: role of the Ras signaling pathway
F. Aklilu, M. Park, D. Goltzman, and S. A. Rabbani E277

Increased lipid oxidation but normal muscle glycogen response to epinephrine in humans with IDDM
N. Cohen, M. Halberstam, L. Rossetti, and H. Shamoon E284

Glucose transport and cell surface GLUT-4 protein in skeletal muscle of the obese Zucker rat
G. J. Etgen, Jr., C. M. Wilson, J. Jensen, S. W. Cushman, and J. L. Ivy E294

Interactions between ^{2}H and ^{18}O natural abundance variations and DLW measurements of energy expenditure
P. Ritz, T. J. Cole, P. S. W. Davies, G. R. Goldberg, and W. A. Coward E302

Central interleukin-1 partially mediates endotoxin-induced changes in glucose metabolism
C. H. Lang, R. Cooney, and T. C. Vary E309

Effects of glucocorticoids on energy metabolism and food intake in humans
P. A. Tataranni, D. E. Larson, S. Snitker, J. B. Young, J. P. Flatt, and E. Ravussin E317

Effects of heparin on renal morphology and albuminuria in experimental diabetes
S. M. Marshall, K. W. Hansen, R. Østerby, J. Frystyk, H. Ørskov, and A. Flyvbjerg E326

Regulation of *obese* gene expression in KK mice and congenic lethal yellow obese KKA^{y} mice
M. Hayase, Y. Ogawa, G. Katsuura, H. Shintaku, K. Hosoda, and K. Nakao E333

Role of different proteolytic pathways in degradation of muscle protein from streptozotocin-diabetic rats
M. T. Pepato, R. H. Migliorini, A. L. Goldberg, and I. C. Kettelhut E340

Levels of plasma C_{19} steroids and 5α-reduced C_{19} steroid glucuronides in primates, rodents, and domestic animals
C. Guillemette, D. W. Hum, and A. Bélanger E348

Cavernosal nerve stimulation in the rat reverses castration-induced decrease in penile NOS activity
J. Lugg, C. Ng, J. Rajfer, and N. González-Cadavid E354

MODELING IN PHYSIOLOGY
INVITED REVIEW

Contributions of modeling to understanding stimulus-secretion coupling in pancreatic β-cells
A. Sherman E362

MODELING IN PHYSIOLOGY

Comparison of mass isotopomer dilution methods used to compute VLDL production in vivo
D. L. Chinkes, A. Aarsland, J. Rosenblatt, and R. R. Wolfe E373

Effect of glucose on uptake of radiolabeled glucose, 2-DG, and 3-*O*-MG by the perfused rat liver
I. R. Sweet, L. Peterson, K. Kroll, C. J. Goodner, M. Berry, and M. M. Graham E384

RAPID COMMUNICATIONS

Pig pancreatic acinar cells possess predominantly the CCK-B receptor subtype
J. Morisset, F. Levenez, T. Corring, O. Benrezzak, G. Pelletier, and E. Calvo E397

Effects of exercise and insulin on mitogen-activated protein kinase signaling pathways in rat skeletal muscle
L. J. Goodyear, P.-Y. Chang, D. J. Sherwood, S. D. Dufresne, and D. E. Moller E403

No. 3. SEPTEMBER 1996

INVITED REVIEW

Regulation of insulin secretion by phospholipase C
W. S. Zawalich and K. C. Zawalich E409

Sequential insulin degradation in cultured fetal hepatocytes in relation to chloroquine-dependent events
J.-L. Zachayus, S. Khan, and C. Plas E417

No evidence for a role of reverse Na^+-Ca^{2+} exchange in insulin release from mouse pancreatic islets
M.-J. Garcia-Barrado, P. Gilon, Y. Sato, M. Nenquin, and J.-C. Henquin E426

In vivo NMR evidence for moderate glucose accumulation in human skeletal muscle during hyperglycemia
R. Roussel, G. Velho, P. G. Carlier, L. Jouvensal, and G. Bloch E434

Presence of renin within intramitochondrial dense bodies of the rat adrenal cortex
J. Peters, B. Kränzlin, S. Schaeffer, J. Zimmer, S. Resch, S. Bachmann, N. Gretz, and E. Hackenthal E439

Cobalt but not hypoxia stimulates PDGF gene expression in rats
M. Bucher, P. Sandner, K. Wolf, and A. Kurtz E451

Glucagon-like peptide 1 undergoes differential tissue-specific metabolism in the anesthetized pig
C. F. Deacon, L. Pridal, L. Klarskov, M. Olesen, and J. J. Holst E458

IGFBP-3 proteolysis by plasmin, thrombin, serum: heparin binding, IGF binding, and structure of fragments
B. A. Booth, M. Boes, and R. S. Bar E465

Interaction between oxidative stress and γ-linolenic acid in impaired neurovascular function of diabetic rats
N. E. Cameron and M. A. Cotter E471

Chronic ethanol feeding in a high-fat diet decreases insulin-stimulated glucose transport in rat adipocytes
J. J. Wilkes, L. L. DeForrest, and L. E. Nagy E477

Reduced glucose effectiveness associated with reduced insulin release: an artifact of the minimal-model method
D. T. Finegood and D. Tzur E485

Effects of oral vs. iv glucose administration on splanchnic and extrasplanchnic O_2 uptake and blood flow
T. Brundin, R. Bränström, and J. Wahren E496

Euglycemic hyperinsulinemia and hyperaminoacidemia decrease skeletal muscle ubiquitin mRNA in goats
D. Larbaud, E. Debras, D. Taillandier, S. E. Samuels, S. Temparis, C. Champredon, J. Grizard, and D. Attaix E505

Regulation of peptide-chain initiation in muscle during sepsis by interleukin-1 receptor antagonist
T. C. Vary, L. Voisin, and R. N. Cooney E513

LIF and CNTF, which share the gp130 transduction system, stimulate hepatic lipid metabolism in rats
K. Nonogaki, X.-M. Pan, A. H. Moser, J. Shigenaga, I. Staprans, N. Sakamoto, C. Grunfeld, and K. R. Feingold E521

Acetaminophen glucuronidation accurately reflects gluconeogenesis in fasted dogs
W. F. Schwenk and J. C. Kahl E529

Mechanism of clearance and transfer of dipeptides by perfused human placenta
S. A. Adibi, S. Schenker, and E. Morse E535

Regulation of lipid metabolism in adipose tissue during early starvation
J. S. Samra, M. L. Clark, S. M. Humphreys, I. A. Macdonald, and K. N. Frayn E541

Effect of overexpressing GLUT-1 and GLUT-4 on insulin- and contraction-stimulated glucose transport in muscle
E. Jóhannsson, K. J. A. McCullagh, X.-X. Han, P. K. Fernando, J. Jensen, H. A. Dahl, and A. Bonen E547

Modulation of β-adrenergic receptor-stimulated lipolysis in the heart by prostaglandins
Y. Ruan, H. Kan, C. Cano, and K. U. Malik E556

Diurnal pattern of the interrelationships among leucine oxidation, urea production, and hydrolysis in humans
A. E. El-Khoury, A. M. Ajami, N. K. Fukagawa, T. E. Chapman, and V. R. Young E563

Triacylglycerol synthesis in the different skeletal muscle fiber sections of the rat
L. Budohoski, J. Gorski, K. Nazar, H. Kaciuba-Uscilko, and R. L. Terjung E574

Growth hormone upregulates gastrin and peptide YY gene expression
G. Gomez, V. Udupi, X. Qi, F. Lluis, S. Rajaraman, J. C. Thompson, and G. H. Greeley, Jr. E582

Insulin resistance caused by hepatic cholinergic interruption and reversed by acetylcholine administration
H. Xie and W. W. Lautt E587

Intact glucose transport in morphologically altered denervated skeletal muscle from quadriplegic patients
A.-K. Aksnes, N. Hjeltnes, E. Ö. Wahlström, A. Katz, J. R. Zierath, and H. Wallberg-Henriksson E593

Exercise stimulates interleukin-6 secretion: inhibition by glucocorticoids and correlation with catecholamines
D. A. Papanicolaou, J. S. Petrides, C. Tsigos, S. Bina, K. T. Kalogeras, R. Wilder, P. W. Gold, P. A. Deuster, and G. P. Chrousos E601

MODELING IN PHYSIOLOGY

Effect of a glucokinase inhibitor on energy production and insulin release in pancreatic islets
I. R. Sweet, G. Li, H. Najafi, D. Berner, and F. M. Matschinsky E606

RAPID COMMUNICATION

Hyperleptinemia: an early sign of juvenile obesity. Relations to body fat depots and insulin concentrations
S. Caprio, W. V. Tamborlane, D. Silver, C. Robinson, R. Leibel, S. McCarthy, A. Grozman, A. Belous, D. Maggs, and R. S. Sherwin E626

No. 4. OCTOBER 1996

Modulation of vascular tone and glycerol levels measured by in situ microdialysis in rat adipose tissue
C. Darimont, P. Saint-Marc, G. Ailhaud, and R. Négrel E631

Differential permeability of the BBB in acute EAE: enhanced transport of TNF-α
W. Pan, W. A. Banks, M. K. Kennedy, E. G. Gutierrez, and A. J. Kastin E636

In vivo effects of dexamethasone and sucrose on glucose transport (GLUT-4) protein tissue distribution
L. Coderre, G. A. Vallega, P. F. Pilch, and S. R. Chipkin E643

Effects of chronic renal failure on plasma clearance of insulin-like growth factor I, des-(1—3)IGF-I, and LR^{3}IGF-I
C. M. Gillespie, S. J. Hazel, P. E. Walton, and A. A. Martin E649

Insulin sensitivity and hemodynamic responses to insulin in Wistar-Kyoto and spontaneously hypertensive rats
M. Pitre, A. Nadeau, and H. Bachelard E658

Gastric antisecretory effect of serotonin: quantitation of release and site of action
K. J. Lepard, J. Chi, J. R. Mohammed, S. Gidener, and R. L. Stephens, Jr. E669

Effects of long-term hypoxemia on pituitary-adrenal function in fetal sheep
J. Murotsuki, R. Gagnon, S. G. Matthews, and J. R. G. Challis E678

Hormonal regulation of prostaglandin $F_{2\alpha}$ receptor gene expression in mouse ovary
J. Sugatani, Y. Masu, M. Nishizawa, K. Sakamoto, T. Houtani, T. Sugimoto, and S. Ito E686

Aluminum potentiates P_i transport stimulation induced by fluoride in osteoblast-like cells
T. Imai, D. Burgener, X. Zhen, J.-P. Bonjour, and J. Caverzasio E694

Glucose-induced oscillatory insulin secretion in perifused rat pancreatic islets and clonal β-cells (HIT)
B. A. Cunningham, J. T. Deeney, C. R. Bliss, B. E. Corkey, and K. Tornheim E702

Glucose-induced transmigration of monocytes is linked to phosphorylation of PECAM-1 in cultured endothelial cells
V. Rattan, Y. Shen, C. Sultana, D. Kumar, and V. K. Kalra E711

Effects of amino acids on synthesis and degradation of skeletal muscle proteins in humans
E. Svanberg, A.-C. Möller-Loswick, D. E. Matthews, U. Körner, M. Andersson, and K. Lundholm E718

Decreased glucose-induced cAMP and insulin release in islets of diabetic rats: reversal by IBMX, glucagon, GIP
N. Dachicourt, P. Serradas, M.-H. Giroix, M.-N. Gangnerau, and B. Portha E725

Protein degradation and synthesis measured with multiple amino acid tracers in vivo
P. Tessari, R. Barazzoni, M. Zanetti, M. Vettore, S. Normand, D. Bruttomesso, and B. Beaufrere E733

Prevention of hyperglycemia in the Zucker diabetic fatty rat by treatment with metformin or troglitazone
S. Sreenan, J. Sturis, W. Pugh, C. F. Burant, and K. S. Polonsky E742

Effect of glutamine on leucine metabolism in humans
R. G. Hankard, M. W. Haymond, and D. Darmaun E748

Impaired insulin secretion and excessive hepatic glucose production are both early events in the diabetic GK rat
F. Picarel-Blanchot, C. Berthelier, D. Bailbé, and B. Portha E755

Progesterone induces changes in sleep comparable to those of agonistic $GABA_A$ receptor modulators
M. Lancel, J. Faulhaber, F. Holsboer, and R. Rupprecht E763

MODELING IN PHYSIOLOGY

Application of probability-generating functions in evaluation of some isotopomer distributions
S. Kotz E773

Modeling a bivariate control system: LH and testosterone response to the GnRH antagonist antide
K. E. Fattinger, D. Verotta, H. C. Porchet, A. Munafo, J.-Y. le Cotonnec, and L. B. Sheiner E775

^{13}C isotopomer model for estimation of anaplerotic substrate oxidation via acetyl-CoA
F. M. H. Jeffrey, C. J. Storey, A. D. Sherry, and C. R. Malloy E788

No. 5. NOVEMBER 1996

Enhancement of Ca^{2+} currents by GHRH and its relation to PKA and $[Ca^{2+}]_i$ in human GH-secreting adenoma cells
T. Takei, K. Takano, J. Yasufuku-Takano, T. Fujita, and N. Yamashita E801

Vagal hepatopancreatic reflex effect evoked by intraportal appearance of tGLP-1
H. Nakabayashi, M. Nishizawa, A. Nakagawa, R. Takeda, and A. Niijima E808

Alterations of plasma lactate and glucose metabolism in obese children
C. Le Stunff and P.-F. Bougnères E814

Carbohydrate ingestion augments skeletal muscle creatine accumulation during creatine supplementation in humans
A. L. Green, E. Hultman, I. A. Macdonald, D. A. Sewell, and P. L. Greenhaff E821

cAMP modulates glucocorticoid-induced protein accumulation and glucocorticoid receptor in cardiomyocytes
A. Sato, K. E. Sheppard, M. J. Fullerton, and J. W. Funder E827

Effects of epinephrine infusion on adipose tissue: interactions between blood flow and lipid metabolism
J. S. Samra, E. J. Simpson, M. L. Clark, C. D. Forster, S. M. Humphreys, I. A. Macdonald, and K. N. Frayn E834

Interferon-α downregulates expression of the oxytocin receptor in cultured human myometrial cells
M. Maggi, A. Peri, E. Baldi, R. Mancina, S. Granchi, G. Fantoni, G. Finetti, G. Forti, C. C. Raggi, and M. Serio E840

Interaction of exercise training and clenbuterol on GLUT-4 protein in muscle of obese Zucker rats
C.-H. Kuo, Z. Ding, and J. L. Ivy E847

Extracellular glucose distribution is not altered by insulin: analysis of plasma and interstitial L-glucose kinetics
G. M. Steil, J. Richey, J. K. Kim, J. K. Wi, K. Rebrin, R. N. Bergman, and J. H. Youn E855

Effect of low-level basal plus marked "pulsatile" hyperglycemia on insulin secretion in fetal sheep
T. D. Carver, S. M. Anderson, P. W. Aldoretta, and W. W. Hay, Jr. E865

GH and IGF-I differentially increase protein synthesis in skeletal muscle and jejunum of parenterally fed rats
H.-C. Lo and D. M. Ney E872

Prolactin stimulation of iodide uptake into mouse mammary gland explants
J. A. Rillema and T. X. Yu E879

The renin-angiotensin-aldosterone system in experimental mineralocorticoid-salt-induced cardiac fibrosis
M. J. Young and J. W. Funder E883

Glutamate transport modulation of paracellular permeability across LLC-PK_1-F^+ monolayers
T. C. Welbourne, D. Chevalier, and X. Mu E889

Exercise during pregnancy and maternal and fetal plasma corticosterone and androstenedione in rats
K. A. Carlberg, B. L. Alvin, and A. R. Gwosdow E896

Growth hormone-induced nuclear translocation of Stat-3 decreases with age: modulation by caloric restriction
X. Xu and W. E. Sonntag E903

Lactate stimulates progesterone secretion via an increase in cAMP production in exercised female rats
S.-S. Lu, C.-P. Lau, Y.-F. Tung, S.-W. Huang, Y.-H. Chen, H.-C. Shih, S.-C. Tsai, C.-C. Lu, S.-W. Wang, J.-J. Chen, E. J. Chien, C.-H. Chien, and P. S. Wang E910

A cross-sectional study on body composition and energy expenditure in women athletes during aging
A. S. Ryan, B. J. Nicklas, and D. Elahi E916

Expression of IGFBP-2, -3, and -4 mRNA during differentiation of Caco-2 colon epithelial cells
A. Hoeflich, Y. Yang, S. Huber, W. Rascher, G. Koepf, W. F. Blum, P. Heinz-Erian, H. J. Kolb, and W. Kiess E922

MODELING IN PHYSIOLOGY

NONMEM improves group parameter estimation for the minimal model of glucose kinetics
A. De Gaetano, G. Mingrone, and M. Castagneto E932

RAPID COMMUNICATION

Leptin is related to body fat content in male distance runners
M. S. Hickey, R. V. Considine, R. G. Israel, T. L. Mahar, M. R. McCammon, G. L. Tyndall, J. A. Houmard, and J. F. Caro E938

No. 6. DECEMBER 1996

INVITED REVIEW

Dual-energy X-ray absorptiometry body composition model: review of physical concepts
A. Pietrobelli, C. Formica, Z. Wang, and S. B. Heymsfield E941

Hepatic VLDL secretion of genetically obese Zucker rats is inhibited by a high-fat diet
